Community Season Three

So often, the greatest sitcoms face imminent death by cancellation. Like *Arrested Development* before it, *Community* isn't afraid to reference continual behind-the-scenes suggestions of "six seasons and a movie." Season three's 22 episodes saw the series develop its esoteric and eclectic storytelling with some episodes having sole genre themes (sci-fi, horror, mockumentary, animation). Ken Jeong (Chang), Jim Rash (Dean Felton) and the dynamic duo of Danny Pudi and Donald Glover (Troy and Abed) give standout season performances. Episode highlights include "Remedial Chaos Theory" and "Basic Lupine Urology." Thankfully, season four is set to air in the US from 19 Oct.
